

# State of Open Access in New Zealand

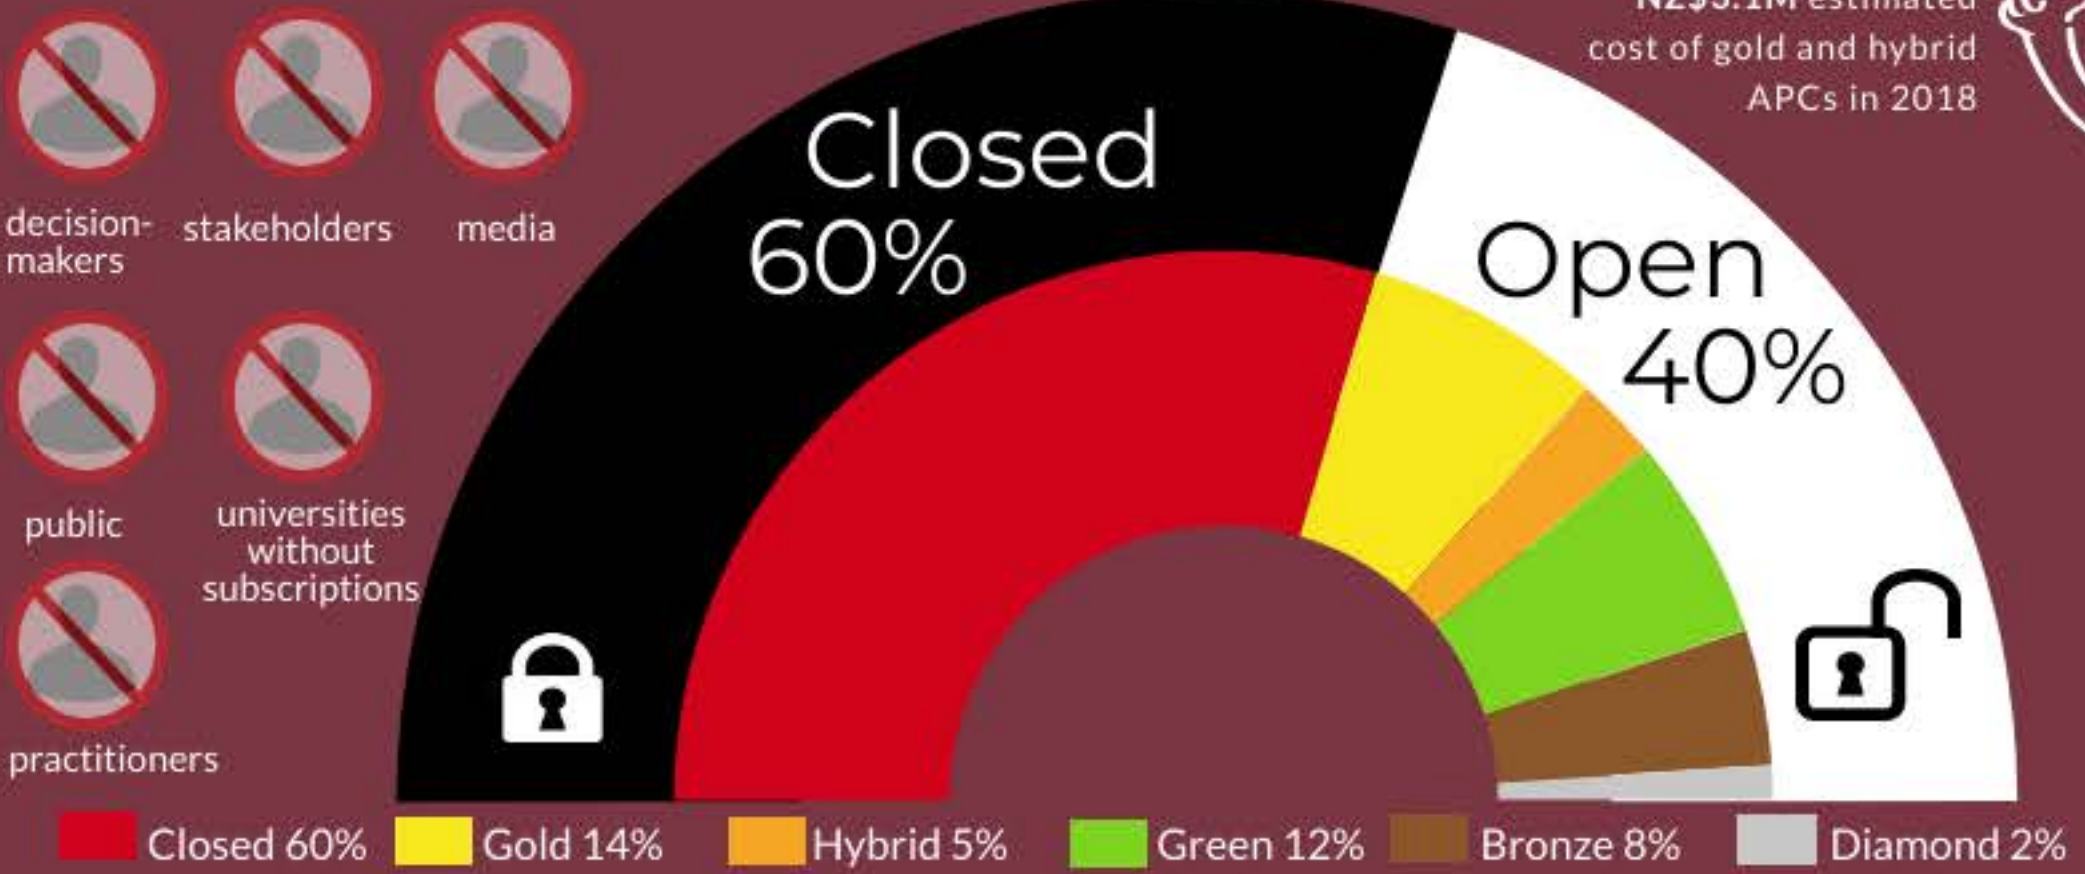

*What do we know?*

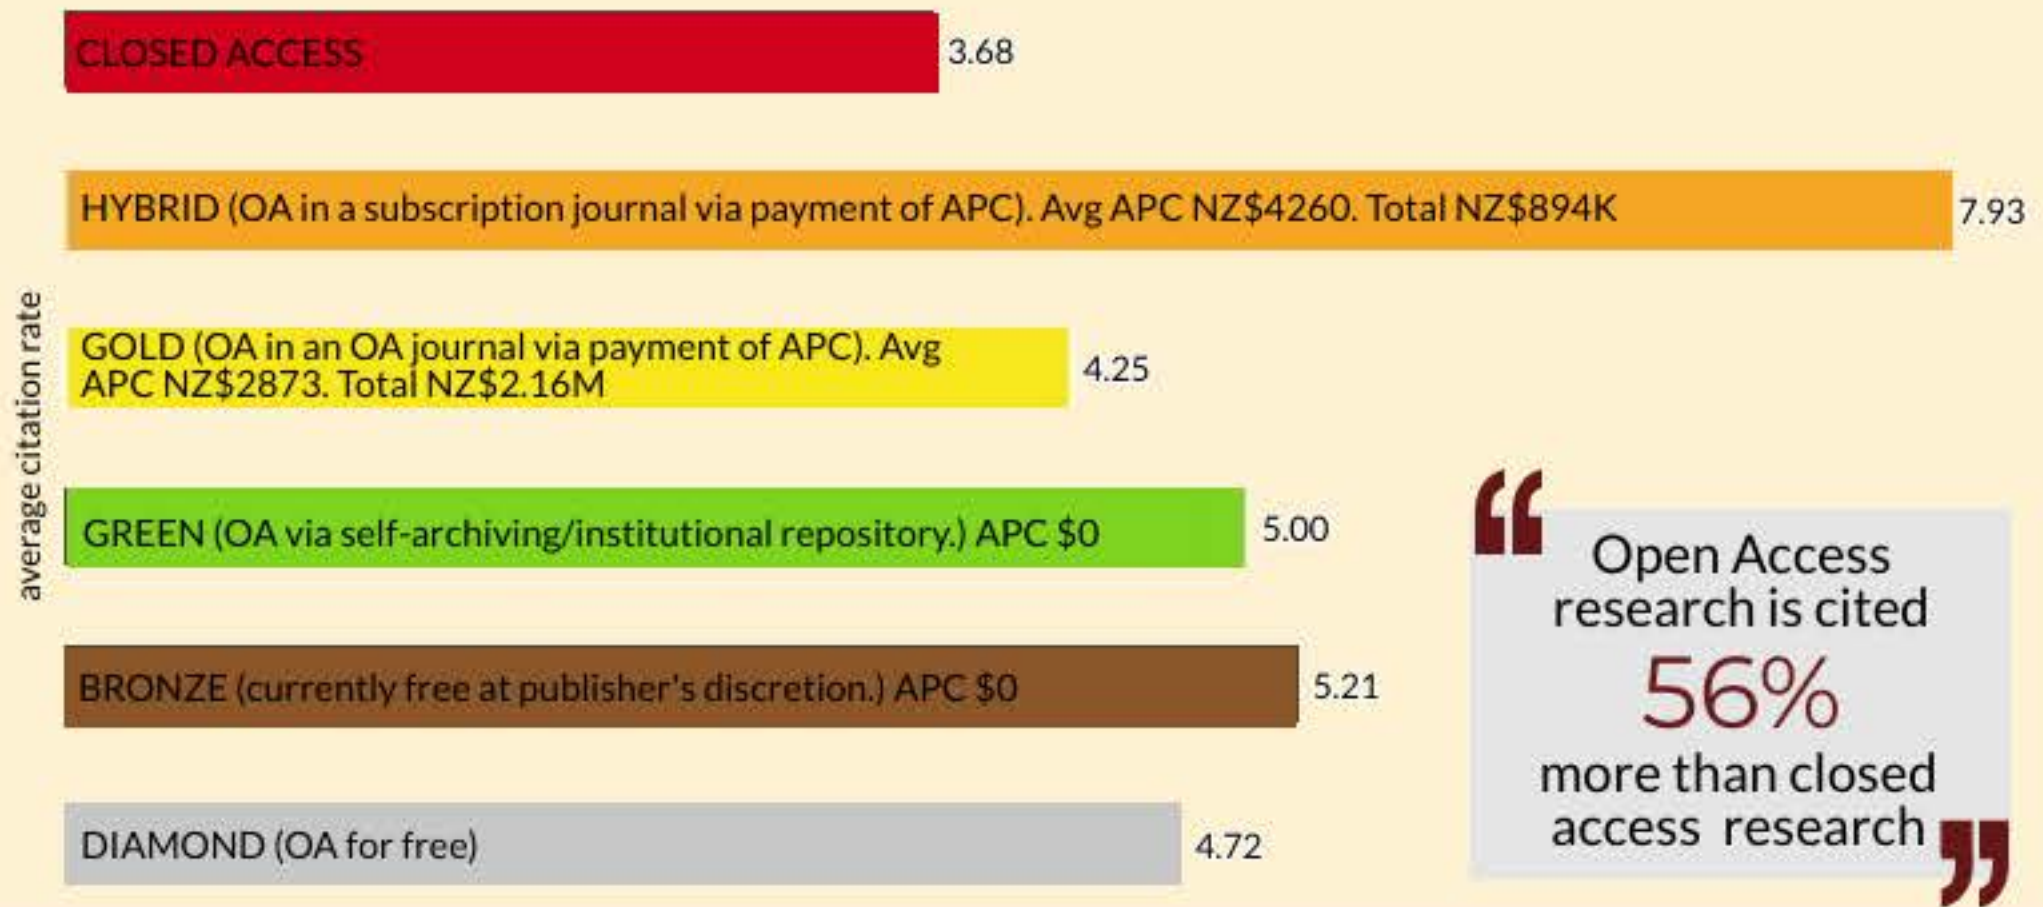

Status as of June 2020 for all 2018 university research publication types with a DOI (13098 publications).<sup>1</sup>

## 3 out of 5 NZ publications are behind paywalls

NZ\$3.1M estimated cost of gold and hybrid APCs in 2018

## CITATION ADVANTAGE for OPEN ACCESS

## NZ universities could massively improve research accessibility

Publishers allow authors to deposit final manuscript copies in our research repositories but we don't. Taking advantage of this would catapult from the 40% shown above to 67%.

TWO out of every THREE publications would be available.

Greater access = greater impact (see Citation Advantage.)

2 out of 3
